Who is your emergency contact?

Please sit down.
Talking to a doctor

Practise with your classmates.

Doctor       What can I do for you today?
Victor       I cannot see clearly
Emily        And his hands and feet have been numb.
Doctor       Ok. I’m gonna take your blood pressure
              Can you roll up your sleeve? Thank you very much. I appreciate that.

Are you feeling tired?

Victor       Yes, I often feel tired.

Doctor       Please step on the scale.

Has your weight changed?

Emily        Yes, he’s lost weight.
Doctor       OK. I’m gonna send you in for some blood tests. I’d like to check for diabetes.

Victor       Do I have to pay for the blood test?
Doctor       No. Just don’t forget to take your Care Card. Here’s where you go to get your blood taken.

Emily        Do we have to schedule another appointment?
Doctor       No the receptionist will call you if we need to see you.
What can you say?

Work with a partner. Below are questions a doctor may ask you. Practise asking and answering the questions.

What can I do for you today?
Are you feeling tired?
Do you have a fever?
Do you have a cough?
Has your weight changed?
Can you roll up your sleeve, please?
How long have you been sneezing?
Do you feel nauseous?
Go home and get some rest.

What can I do for you today?
Are you feeling tired?
Do you have a fever?
Do you have a cough?
Has your weight changed?
Can you roll up your sleeve, please?
When did your headache start?
Do you feel nauseous?
I’m sending you in for a blood test.
List five very simple things that you can do to be active. Share them with your partner or a group.
