

## Posting: **Volunteer Employment Mentor** (ongoing)

### Employment Mentors Program

---

Employment Mentors objective is “Building Connections for Employment”. Through one-on-one matching relationships, we connect immigrant newcomers with professionals of similar vocational or skilled backgrounds for coaching in accessing the Canadian labour market.

*Your professional leadership and expertise is invaluable to our newcomers.*

#### **Volunteer Mentors are...**

- Leaders willing to invest their time, employment expertise and professional knowledge with a newcomer. Commitment to a minimum of 3 meetings (in person or by phone) over the course of a couple of months at a mutually agreed upon location and time.
- Community members willing to coach a newcomer seeking knowledge of the Canadian labour market. Newcomers will benefit from your encouragement and perspective.
- Professionals committed to seeking out and as available, attending networking events and opportunities with their mentee. A professional mentor will have knowledge of events and conferences specific to their industry which can be shared with a newcomer.
- Goal-focused and motivated leaders willing the share their ‘a-ha’ moments and employment advice with a newcomer. Everyone needs a plan for their professional careers, and a mentor will have industry-specific knowledge that will help with crafting a realistic career plan.
