Long before COVID-19 made its way into our communities, we began the process of engaging with Janna Jorgenson of ION Consulting to develop a 5-year Strategic Plan. As a purpose-driven organization, AMSSA requires an impact-driven strategy to achieve our vision and Janna was the ideal person to lead us into the development of this framework. We started with the knowledge that our purpose will drive us to achieve our vision and we have taken on the challenge at this unprecedented time to create a strategic framework that allows us to be flexible and nimble.

We recognize that the barriers are significant at this time, and we were committed to developing a strong framework that will guide our collective action. This strategic plan is the culmination of months of consultations with members, funders, partners, the board and AMSSA staff. This was a collective effort that was created to reflect our members' voices, keeping our members at the centre of everything that we do. We developed a purpose statement to clearly state to our membership what is at the heart of this plan, and then expanded our values into statements to define how we will approach our work.

As an impact-driven strategy, we present our intended impacts as the barometer of our efforts, demonstrating to our members the intention of our decisions and operations. Through the pillars and strategies, we show our membership how we will focus our activities to achieve the greatest impact. Over the next 5 years, we will root all of our activities, events, and engagement in these strategies so that our membership can continue to rely on AMSSA to support their own operational capacity, and to advocate on their behalf.

We are grateful for the privilege we have of working with such an incredible group of organizations and we look forward to ever listening and ever learning as we take on the next 5 years.

Sincerely,

Katie Crocker
